Thank You's & Construction

July 28, 2016

A Note From Father Donald Staib

Members of the Parish,

Thank you for the generous response last weekend for the 2nd collection for the victims of the recent floods in our area. We will give to Catholic Charities \$2,338.

We also received a thank you from Catholic Charities for the recent collection of baby items and money. St Mary Magdalene provided 1,100 pounds of baby items and \$1,427 in donations.

It was impressive this past week to see our Chapel filled with Youth from our parish who were participating in 'Mass and Mission.' Blessings to all who participated and to the adults who organized the week's efforts to help others.

Construction

During the past week the steel workers put in place the front and back pitched roof beams. The building keeps getting higher; the eight sided dome beams are on site and will go up when their time comes.

Thank you to all who have made recent pledges and gifts. They are a big help in our desire to add the Chapel and other items we have deferred. We ask especially those who have not yet participated in our new church project. Many have pledged already \$5,000 payable over 4 years. Many thanks.

DONATE NOW

(Click on the above link to Donate)

Here is a scene of some members of the parish enthusiastically signing the beams which will go into the dome part of the roof - maybe this next week.

Here is an inside view looking up to the sky through the dome. This view will not be available once the roof materials are in. We do not want to have that much air conditioning!

Next week there will not be an e-news so the next views may be with the dome roof view covered.

Please note that there will not be a daily morning Mass from August 2 through 11.
